

WHAT DRIVES US

CEDAR WILL PURSUE THE FOLLOWING OBJECTIVES OVER THE NEXT 3 YEARS:

- 1 **Identify, collect, generate, harmonise,** synchronise, protect, and share new large-scale, high-quality, high-value datasets (10+) relevant for increasing transparency and accountability of public governance in Europe.
- 2 **Build and improve methods and tools** for effective data management and machine learning (ML) operations (DataOps, MLOps) in order to facilitate efficient, scalable, automated, and trustworthy management of open data spaces, with a view to enable a more transparent public governance.
- 3 **Develop new data analytics** and machine learning methods for robust, data-efficient, human-centric, and well-informed decision making.
- 4 **Validate and promote CEDAR results** with relevant public and private stakeholders and generate direct, tangible, and immediate impact on European economy, society, and environment

CEDAR

THE CONTEXT

The world is currently confronting unprecedented challenges, encompassing a global pandemic, ongoing conflicts, and environmental and energy crises.

In response to these crises, there has been a significant surge in emergency public spending, accompanied by a relaxation of due diligence checks and oversight.

Consequently, this has given rise to patterns of corruption and fraudulent activities, exerting profound and detrimental impacts on the European economy, society, environment, and politics.

OUR GOAL

CEDAR will
develop methods,
tools, guidelines
for automated
Digitalisation of data
sources existing in
public administration's,
in the framework
of the fight against
corruption and
fraudulent activities,
with a view to
align with the EU
strategic priorities on
digitalisation, economy
and democracy.

PILOT STUDIES

**CEDAR WILL IMPLEMENT
VALIDATION EFFORTS
BASED ON THREE DISTINCT
USE CASES ACROSS DIFFERENT
EUROPEAN COUNTRIES:**

- 1 Monitoring National Recovery and Resilience Plan (RRP) Funds in Italy.
- 2 Transparent Management of Slovenian Public Healthcare Funds.
- 3 Transparent Management of Foreign Aid for Rebuilding Ukraine.
